

# Stakeholders Circle

An exercise in risk assessment,  
based on a Native American custom.

Go around the circle  
– no one is allowed to skip.

1

What is the **best** thing  
that could happen if we  
**do nothing**?

2

What is the **worst** thing  
to happen if we choose  
this **course of action**?

Do any answers cause you  
to rethink your solution?
